

Subscription page

On this page, the user can select a plan. Available plans are listed showing what's included and the price. Every plan comes with a video of Wonder George explaining the specifics of this offer.

After choosing a plan, the user can update the billing information and select the type of subscription (if available such as monthly or yearly).

When clicking the "go to payment" button, the user is directed to the payment page that displays the price, the taxes, the total due today and the renewal date. They can then type in their credit card information and click pay.

All the features included in the subscription will be available after a successful payment and for the duration of the subscription.
