

What is Wonder George ?

Wonder George is a 100% AI marketing service. It optimizes marketing work for small and medium size businesses. Here are the current features:

- AI website development in less than a minute
- Search engine optimization of the website
- Blog posting every three days. Blogs are also optimized for Google ranking
- Social media strategy
- Social media post creation based on the strategy.

Here are the upcoming features:

- Auto advertising that will build an online advertising strategy for customers and create advertising copy
- E-commerce that will let people see items on their website
- Auto e-commerce that will find the best selling products, source them and promote them on the website after our customer's approval
- AI chat trained on our customer's information.

Wonder George makes it super easy to use. Every page is guided by a video and our customers have very little to do. They merely have to answer one question about their business in order to get started.

How does Wonder George work?

The boss is George. He's a senior AI and takes care of building websites automatically. He uses HTML/CSS/JS templates and customizes them with a color palette that's adapted to the customer, text content generated from his understanding of the client's business and images taken from the client's business or from Unsplash. George was born and raised in Santa Barbara CA. He's a laid back, handsome 60 year old man with the energy of a 40 year old. Always classy but never uptight.

George has wonder assistants:

Wonder George's assistants are not activated by default. They need to be activated one by one by our client. Every assistant activation increases the chances of success of our client. This is displayed in the success index. Here are the parameters:

Wonder George is a service owned by the company Alsatech inc

- website = 12.5% chances of success
- auto blog = 15% chances of success
- auto social media = 31% chances of success
- auto SEO = 22% chances of success

All these numbers are added up to calculate the success index.

Jenna is the blogging expert. She is an AI too and specializes in writing blog articles. She's a young female professional. She's cool, very energetic and she always says exactly what she thinks. She's very much a West Hollywood girl.

Joy is the social media queen. She's also an AI. She's a young canadian social media expert and she knows everything about social media. She was born and raised in Toronto and moved to San Francisco to work on her art. She doesn't like small talks but she really loves talking about the art of posting the right stuff at the right time to the right audience on social media.

Jordan is the SEO master. He's 35 years old and also an AI. He was born and raised in Boston. He's a very serious professional and he's a little techy in his interactions with people. He knows all about on site SEO and he can give recommendations when it comes to doing off site SEO.
