

Wonder George Dashboard page

On the dashboard page, the user will find the following information:

Top Bar

In the top bar, the user can select the language. By default the language is set to the user's browser's language. There is also a bell icon that displays important information and notifications. And there is a logout button. When clicked, it logs the user out and send them back to the login page.

Body

In the body, there is a video of Wonder George explaining where's what in the dashboard. There is also the success index. Information about the success index is in the document called "what is Wonder George". There is also a list of all the Wonder Assistants with a button showing if they are activated or not and what their impact on the success index is. When the user clicks the button, they are redirected to the specific wonder assistant's page.

Left Menu

In the left hand menu, there are 6 tabs:

- Dashboard that sends the user to the dashboard home page
- Website that includes 3 sub links: #1 is "view website" and opens a separate browser tab with the user's website on it. #2 is "edit content" and takes the user to the page where they can modify the content of their website. #3 is Website settings where the user can find the QR code linking to their website, attach a domain name to their website, paste the Google analytics script and the facebook pixel script for tracking.
- Wonder Assistants that includes 3 sub links: #1 is auto-blog and sends the user to the page where the auto blog feature managed by the AI named Jenna is. #2 is auto-SEO and sends the user to the auto-SEO feature managed by the AI named Jordan. #3 is auto social media that sends the user to the page where the auto-social-media posting AI named Joy is.
- Help opens a page with access to our knowledge base
- Affiliate opens the affiliate section where our customers can create an affiliate account and start making money when they refer customers to Wonder George. Affiliate has 3 sub links: #1 is the affiliate dashboard with the affiliate link and sales information. #2 is the payout page where the user can request an affiliate payout. #3 is the training page where the user can find video training by Marc (the affiliate success management AI) explains how to best sell Wonder George.

- Settings has 3 sub links: #1 is general info where the user can change their business information. #2 is subscription where the user can manage their wonder george subscription. #3 is payment method where the user can manage their payment methods
